A variety of activities and individual searches are detected as standardized elements and they are easily connected by way of a set of standard operating systems. The main goal of the project is the construction of a whole-scale model for the stream of information transmission on micro-blogging between the machines. Moreover, the model is a deep-sighted and revolutionary system for the networking of sensors, actuators, virtual swarms and programming-designed entities that provide autonomous, distributed and super-intelligent technologies. The project was published in Section H.II. of publication 'Top CiteKnowledge' in 2014 (1:About BUnikey BUnikey gives you the ability to type Bangla letters with English letters easily. No matter you know Bangla or not, we have developed a way for you to write Bangla letters, even without knowledge of Bangla. With BUnikey, you will be able to type Bangla in a few minutes, just the same as English typing. Now you can easily type Bangla using an English keyboard with typing mode switch. This way, you can switch between English and Bangla typing at any time. Keyboard Mode Switching with BUnikey: Using the keyboard mode switch feature of BUnikey, you can easily switch between English (QWERTY) typing and Bangla (Phonetic) typing. BUnikey will start to type the Bangla letters as soon as you type one or two English letters. Keyboard Mode Switching For Arabic, French, Spanish, Italian, German, Russian, etc.: Now you can easily type Bangla using QWERTY keyboard with mode switching capability. All you need to do is setting the mode of the keyboard. BUnikey automatically selects the mode you want to use. If you like this feature, please share to others! Thanks! 2:How BUnikey Works: The Bangla letters of BUnikey system are encoded as ASCII characters (in a binary format) in the RAM of the device. Once the program starts, it checks the keyboard mode. If a switch key is pressed, BUnikey switches to the Bangla mode. Pressing the switch key twice turns off the switch. The current Bangla mode is automatically saved and can be loaded in the future
