Drivers For Pcline PCL100K Webcam Setup |LINK| Free

? I have an Asus Eee PC with a Pc Line Webcam. I have the CD-disc for the driver, but I have no installation software. A: On the page for your webcam, you can download the Windows 8 drivers. To use these, you need to do some work in the registry. Those are just for the device. To make it work, you also need software and to edit the registry as described on this page: Take-Two San Francisco Benchmark was published today by independent research firm Pressware in anticipation of the release of the new Borderlands 2 PC beta later this month. The data used in the benchmark (originally leaked in April) is based on hardware including an Nvidia GTX 580, a 3.5GHz Intel Core i7-4770 CPU, 16GB of DDR3 RAM, an Intel 1TB SSD and, of course, Windows 7 64-bit. In terms of system performance, Borderlands 2 PC is up to 2x faster than the console version on average, and as you can see in the graph above, the high-end PC hardware used in the benchmark boosts frame-rate well over consoles. If you're looking for a quick breakdown of the performance boost you can expect, Take-Two revealed that Borderlands 2 on PC will be able to run at a steady 60 frames per second at 1080p with an additional boost to 100fps at 1440p. Meanwhile, PlayStation 3 and Xbox 360 can only manage up to 30fps on our favourite resolution with full-blown graphics at 1080p. In terms of memory and storage requirements, Take-Two claims Borderlands 2 for PC requires up to 16GB of RAM and a 250GB hard drive. Again, this is for the premium PC build with the highest end graphics. The console version will require 8GB of RAM and a 320GB HD (PS3) or 250GB HD (Xbox 360). Borderlands 2 will be released on PC, PlayStation 3 and Xbox 360 on September 18 in Australia and on September 20 in the US.4 answers I'm sorry, I don't mean to belittle your loss, but this happens far too often in the field. I'm not sure what your situation is, but it's not the first time I've heard
