How to Use SAP NetWeaver Mobile Application Server or SAP NetWeaver Mobile Server? • The SAP NetWeaver Mobile Application Server is built on top of the Web application server. SAP NetWeaver Mobile Server is a Web application server. • A new SAP NetWeaver Mobile Application Server is installed on the PC or the mobile device. • The mobile device is connected to the PC where the SAP NetWeaver Mobile Application Server is installed. • The PC application server collects data from the SAP NetWeaver Mobile Application Server and provides it to SAP-dependent applications. • After connecting to the PC application server, the mobile device displays the applet. • Users can navigate the applet via a GUI. The application server provides basic data management functions. For example:

- o Data is stored locally on the mobile device.
- o On the PC, the collected data is synchronized with an SAP ERP system.
- o SAP NetWeaver Mobile Application Server supports the mobile device data management to a higher level than on the PC. Once connected, the mobile device displays the application server applet. At the press of a button, the user can navigate the application server applet. To contact us regarding our instant messaging program, please feel free to search for “SAP NetWeaver Messenger Service”. Note: Like other SAP products, SAP NetWeaver Mobile Application Server is distributed via the Software Distribution Center (SDC). An SDC licence is needed in order to install the SAP NetWeaver Mobile Application Server. SAP NetWeaver Mobile Application Server downloads SAP NetWeaver Application Server is always available via the Software Distribution Center (SDC) at no charge. With a valid active licence for the SAP Product and the hardware requirements, you can download and install SAP NetWeaver Application Server. SAP NetWeaver Mobile Application Server is available for all supported mobile devices, for example: • iPad • iPhone • Android devices (phones and tablets) • Nokia S60 devices (phones) • Windows Mobile devices

The SAP NetWeaver mobile app is not compatible with the following devices: • Windows mobile-based devices (phones) • BlackBerry devices • Symbian devices • Android based tablets • HP TouchSmart • HP TouchPad • Palm Pre or Palm Pilot devices •
