Your school is demanding more than an A on your latest assignment. They want to know how you use the internet. The Internet is still a vast world of possibilities, but your school's website is trying to limit its use to a safe, controlled, supervised space. We will show you how to avoid getting in trouble online. The internet, or more specifically the World Wide Web, is a huge place. The WWW contains more information than you have probably ever read before. But, at the same time, it is also a threatening place. While your school is concerned about how you use the internet, what you do online can affect not just you, but your friends, your family and your future. You have the power to choose whether you use the internet to make friends, buy things, or do anything else. Our program includes various tips to help you stay safe and responsible when using the internet, and includes a website that will take you to a great resource on the subject. Designing Your Own Vintage Cosplay Doll Description: Vintage cosplay is a relatively new industry; all the recent cosplay trends seem to be, at some level, variations on the same themes, and each variation appears to be influenced by a brand, or a particular subculture. However, this is not to say that there isn't a "vintage" style in and of itself. The costumes you see today, which are often described as "vintage-inspired", are the products of the past, but they are still very much influenced by the past; and the past still influences the future. You can make a costume that is "vintage-inspired" by: Appropriately selecting the design elements you want to use in your cosplay. Finding a way to interpret those design elements. Creating a costume that is appealing and that fits your style. Our site includes tips for the novice and experienced cosplayer alike, as well as tips on how to carry your costume. Cosplay Basics: How to Do Cosplay How to Do Cosplay: This program will show you step-by-step how to cosplay. The contents of the program are: The two most basic elements of cosplay - how to make your own costume and how to carry your costume. Modeling basics for beginners - starting with basic shape and form elements. A basic tutorial on what to look for in a cosplay design. A basic tutorial on what to look 1d6a3396d6
