What's New in the Zip Multiple Folders And Multiple Directories Into Zip Files?

===== This software is a really easy to use archive utility to archive multiple folders and zip them all at once. You can easily go through all the folders you want to zip all at once and select which ones you want to zip and which ones you don't want to zip. How to use ===== To use this software, you need to install the software and create the user name for your PC, choose the folders you want to zip and click the "ZIP" button. You can use the drop down box to select from which archives to zip and how large they should be. If you want to unzip them all at once, all you need to do is use the "Unzip" button. You can also rename the archives as you go if you like. Installing ===== You can install the software using the files you find in the archives folder, which you can locate in the download folder. You need to copy all the archive files to the C:\FTP for the program to run and to locate the archives folder. If you want to uninstall the program, simply delete the archives folder. Frequently Asked Questions ===== Q. I'm looking to archive a folder and all of its sub-folders. Is this possible? A. Yes. You can use the button on the toolbar to either select a folder that you want to archive, or you can use the browse option to select a folder. If you want to archive all the folders in a folder, simply use the folder you want to archive. Q. Can I unzip all my archives at the same time? A. Yes, you can use the button on the toolbar to either select a archive or to unzip them all at the same time. You can also use the browse option to select which archives you want to unzip. Q. Can I rename the archives as I go? A. Yes. You can use the drop down box on the toolbar to select the folder you want to rename, and then you can select the name you want to use for the archives. Q. I accidentally deleted some archives. Is it possible to recover the files? A. Unfortunately, the software was not developed with the capability to recover from a lost archive. You can however use the Windows search feature to recover files from an archive. Q. What if I cannot remember the name of the archive I want to use? A. Simply select the folder that you want to use from the archives drop down box on the toolbar. This will automatically set the archive to use to that folder. Q. I accidently unzipped some

---

archives and now I can't find them. A. Go to your computer's file manager (by default, the Windows

Minimum: OS: Windows 7 Processor: 2.4 GHz Quad-Core or equivalent Memory: 4 GB RAM Graphics: Microsoft DirectX 11 compatible with 512MB of video memory DirectX: Version 11 Network: Broadband Internet connection Hard Drive: 20GB available space Additional Notes: To uninstall Games for Windows Live functionality and free up space on your hard drive, please follow the uninstall instructions on this page. Recommended: OS: Windows 7 or higher Processor: Quad-Core
