- Namu ain't no joke - What it's all about. - Trials of Mana - A well balanced and fun game with short but fun dungeons and lots of side quests. Also in several locations in the game you have different events, a sort of mini games. A must play if you want to enjoy a Japanese role playing game with a western feel.9.0 Metacritic -, -, ...,7.5 DayZ: - I was very worried but, in the end, a lot of stuff is awesome and it's worth playing in my opinion.10.0 IndieuegosGameplay MAGICS! - A city builder with a western feel. - One of the best strategy games for Android with tons of things to build.11.0 IndieuegosGameplay HEXALICIA - The first part of the game is well balanced and fun. But, as the game progress, there are just too many bad bugs. And it's only the first and second day of the game. I also found a lot of the maps useless and an almost complete lack of towns and houses. However, there is a lot of fun in the game.10.0 IndieuegosGameplay CANAVEJO - Very fun and well developed. Unfortunately, at the end of the first day of the game you don't have enough food to survive.14.0 Metacritic -, -, .8.5 TINYFALL - Best mobile port of the game in my opinion.15.0 IndieuegosGameplay FANTASTER - The best "dungeon crawl" that I've ever played. The first and second part of the game are very well balanced and fun, with a lot of things to do and to explore.16.0 IndieuegosGameplay - Probably the best RPG ever made, specially because of its story and the fact that it has a nice story. If you like a good and deep RPG, you will love this game.17.0 IndieuegosGameplay FANTASY HERO QUEST - Epic RPG for Android with a good story, difficult battles and nice maps. However, the levels get too repetitive for some players, the missions seem to be a bit like a copy and paste job from other RPG's, and a lot of the enemy characters seem to be over used. However, the game has its good moments and it is worth playing.20.0 IndieuegosGameplay ALPHA
