CUREApp CUREapp is a new subscription box service for the iPad, iPhone, and iPod touch. They are a little different than most subscription boxes because they don't require you to order a whole box, but instead you'll get a few items selected from their "Random Sampler." As you start to receive your box, you can track every delivery in your "app history." Once you reach 1,000 deliveries, you'll get a new "box," and you can repeat the cycle as many times as you want. If you are craving something delicious, their current boxes include fresh mozzarella, French Roasted & salted almonds, a bag of sour candies and fresh eggs. When selecting a box, they will send you a survey that will let you know what will be in the box you will receive.
