Photoshop Tutorial Ä¹ Beginner XR  
Traning For Photoshop. I am starting  
to learn photoshop, but one of the  
things I hate about retouching is  
that.Q: Push to github and gitosis does  
not contain my files I was working on  
a new repo for my project and created  
a branch and started working on it. I  
was committing my files to bitbucket  
and working on a remote branch of  
my master repo. I was synced and  
everything was working fine. I stopped  
working on the remote branch and  
started working on my local repo.  
When I stopped working on my remote  
branch and started working on my  
local repo, I saw that all my files were

---

missing. They were not present in my local repository. I tried pushing to github and when I did that, I saw that my files are not present in the gitosis repository. I have no idea how this happened. My files were present in the server for a long time, and my git repo was syncing with my bitbucket repo and working fine. Then, I created a local branch and started working on it. Then, I pushed my files to bitbucket and stopped working on the local branch. Then, I committed my changes to the local repo. After that, I tried pushing to github and the files were not present in the gitosis repo. The files are still present in the server.
