To us, it's not a matter of what we can add to create a better game, but rather a matter of what we can delete from previous games in the series and experience the Elden Ring as a brand new game. The most important part is to provide you a game that is exciting and filled with tension, and that's why we have thoroughly considered all the aspects of the game. I'm getting ready to sit down and play this game, and i'm pretty excited,as i've

always been a fan of the Elden Ring, and also an aspiring game developer, so this is sure to be a good experience for me and others. I'm planning on going at it in the same way i always do, get in-depth and get my hands dirty, unless i'm totally lost, but i'm sure someone out there is capable of guiding me in case i'm stuck. Here's a short look at what i'm playing, the screenshots were taken from the game itself. For those who played and liked the 2nd in the series, Tarnished Prince, they're in for a treat. That being said, if you haven't played it yet, there's a lot of new stuff waiting for you, but perhaps i won't spoil anything for those who want to do it the same way i do. Feel free to join our discord group for updates and join discussions. Tell everyone you know about this amazing game and show them this:
