

October 20, 2009 - I placed sldappu.dll in C:\program files\solidworks corp\solidworks 18.0.0.5035. I'm at a loss. I filmed in 2006 and 2007. I am one of the leading actors in this film. I don't know how to make them see that I'm not dead. We must not lose each other again. I don't know why all this happened. I don't know how to stop it. I do not know how to do that. I don't know how to stop all this and move on. I would like you to see me on the screen. You don't have to believe it. But just watch the movie. Listen to him. You will see me in this film. I am one of your children. I am your father.
