why not explore the strange world of the anime? interactive animes [r18]. it's possible to select among a variety of animal species, ranging from quadrupeds to fish, to other members of the animal kingdom. the goal of the game is simple: to survive, in a world where the only source of food is the inhabitants themselves. basically, the inhabitants are cannibalistic, and they are all trying to eat each other. a good thing to note about this is that your character doesn't even have any clothes, so you have no way of being identified as male or female. in fact, the only way you can be identified is if you happen to look like a member of a particular animal species. the graphics are very smooth and well designed, and they look pretty real. in a way it is similar to dress up games where you have to dress up the girl and give her some accessories. but where dress up games are just for fun and amusement, this game is very serious. the idea is to make the boy feel like a real woman in a way of an adult interactive game, while being tied and forced to behave like a woman. i can't believe i'm on an xxx game, but i'm always up for something new. are you? this is a story driven interactive game that will take you on a journey to becoming a real woman. the game will take you through a set of scenes that will force you to act in a certain way. you will have to simulate being a true lady. you will be forced to look at yourself in the mirror, and you will be forced to wear a dress, stockings and shoes. you will also be given a makeover. you will be forced to take a shower and shave yourself in the bathroom. you will be forced to make a decision. you can either choose to obey and get the makeover or choose to refuse. you will be forced to make the right choice. the game will be unforgiving in its way of treating you. i really liked the game so far, and i plan to keep playing it. it will be updated regularly. you can play for free right now. it is a free game, but it contains adult content, so if you are under 18 or don't agree with adult content, you should not continue.
