## **Mozilla Cleaner Free**

Mozilla Cleaner is a lightweight software application whose purpose is to help you clean your web browsers' history, temporary data, cookies, and passwords. Although the name of the program may mislead you into thinking that it is capable of working only with Firefox, you should know the tool also offers support for Internet Explorer and Chrome, as well as Windows system-related cleaning tasks. Easy-to-decode layout You are welcomed by a clean design that lets you know if IE, Chrome, and Firefox are installed on your computer. You may also specify the path to the current user profile. A multi-tabbed environment is employed for helping you set up cleaning tasks for each web browser. Deletion capabilities Mozilla Cleaner offers you the possibility to clear history, cookies, temporary Internet files, form data, and passwords for IE. When it comes to Chrome and Firefox browsing data, you may remove history, cookies, and cache. What's more, you are allowed to get rid of certain system files, such as temporary folders and prefetch, Recycle Bin, recent, and WMP files. The tool lets you clean user-defined files and is able to process the content of an entire folder. A few configuration parameters help you activate a cleaning task upon closing the web browser, run the tool at Windows startup, and open it minimized. Tests have pointed out that Mozilla Cleaner carries out a task quickly and without errors. It does not eat up a lot of CPU and memory resources so the overall performance of the computer is not affected.

A log is kept at the bottom of the main window, which provides information about the deletion process and possible errors. Mozilla Cleaner Description: Mozilla Cleaner is a lightweight software application whose purpose is to help you clean your web browsers' history, temporary data, cookies, and passwords.
